

The Australian Iskcon Prison Ministry is a strategic endeavor to spread Lord Caitanya's mercy to the fallen souls of Kali-yuga who find themselves within a prison of the prison house of the material world

If you give me chance to speak to all the members in jail, it is quite possible for me to turn them into ideal characters."
Srila Prabhupada, Letter to Sri Puri, 1962

- The **first phase** of the project involves sending a package of Srila Prabhupada's books to all of ~100 prisons in Australia that will accept them. This is an eminence endeavor to distribute the mercy and rely on the Supersoul to guide inmates to read the books. All books are sent centrally from Gold Coast Bhakti Yoga Center.
- The **second phase** involves corresponding with inmates once they have started to read the books and are interested. Each book is stamped with the same address where inmates can send letters. This is where personal relationships foster to develop their Krsna Consciousness and encourage them to practice while in prison. More articles such as books, beads and posters can be sent to encourage progression.
- The **third phase** is to physically go the prisons to hold preaching programs including kirtan, discourses and prasadam. This phase allows the most personal interaction and further enforces inmates' enthusiasm for Krsna Consciousness. This phase allows widespread access to other inmates and restarts the cycle for more preaching.
